

**Kids Health Link**  
Helping Kids Get & Keep Healthcare

**Kids Health Link**, sponsored by 8 community organizations with funding from First Things First, helps uninsured families enroll in Arizona Health Care Cost Containment System (AHCCCS), our state's Medicaid health coverage, or links them to other free or low-cost healthcare in the community. Contact them at 1-800-235-9678 in English or Spanish, 24 hours a day.

**Health Link** ayuda a las familias que no tienen seguro médico a inscribirse en el programa de Sistema de Contención de Costos de Cuidado de Salud del Estado de Arizona (AHCCCS), el seguro médico Medicaid de nuestro Estado, o lo podemos referir con otros programas de asistencia médica gratuita o de bajo costo en la comunidad.

DEPARTMENT OF HEALTH AND HUMAN SERVICES • CENTERS FOR DISEASE CONTROL AND PREVENTION

## 2010 Recommended Immunization Schedule for Children from Birth Through 6 Years

Birth	1 month	2 months	4 months	6 months	12 months	15 months	18 months	19-23 months	2-3 years	4-6 years
HepB	HepB			HepB						
		RV	RV	RV						
		DTaP	DTaP	DTaP		DTaP				DTaP
		Hib	Hib	Hib §	Hib					
		PCV	PCV	PCV	PCV				PPSV	
		IPV	IPV		IPV					IPV
					Influenza (Yearly) *					
					MMR					MMR
					Varicella					Varicella
						HepA (2 doses) §				

Shaded boxes indicate the vaccine can be given during shown age range.

NOTE: If your children miss a shot, you don't need to start over, just go back to your healthcare provider for the next shot. The healthcare provider will keep your children up-to-date on vaccinations. Talk with your healthcare provider if you have questions.

### Footnotes

§ HepA vaccination is recommended for high-risk children older than 2 years, along with a dose of meningococcal vaccine (MCV4) and pneumococcal vaccine (PPSV). HepA vaccination may be administered to any child over 2 for whom immunity is desired.

See vaccine-specific recommendations at [www.cdc.gov/vaccines/pubs/ACIP-list.htm](http://www.cdc.gov/vaccines/pubs/ACIP-list.htm).

\* Children 6 months or older should receive flu vaccination every flu season. If this is the first time for flu vaccine, a child 6 months through 8 years of age should receive two doses, separated by at least 4 weeks. If this child only receives one dose in the first season, he or she should receive two doses the next season, if still younger than 9 years. Ask your child's healthcare provider if a second dose is needed.

The best place to get baby shots is through your child's doctor or health plan.

If you do not have insurance, free shots are available without an appointment at the following locations:

El mejor lugar para recibir las vacunas para su niño es por medio de su doctor o su plan de seguro médico.

Pero si no tiene seguro médico, hay vacunas gratis disponibles, sin cita, en las localidades siguientes:

**W** West **E** East **C** Central  
**Oeste** **Este** **Centro**
